# KZ-B20 V1.1 (micro SIM to SIM Card Extender)

Introduction:

KZ-B20V1.1 Micro SIMcard Extender is a debug and test tool especially for iPhone4, iPhone4S iPad2 and NewiPad (3rd Generation). Design the FPC cable for flexible use.
It allows a Micro SIM Card to be extended from the host slot for SIM interface. As thickness of FPC is 0.1mm, KZ-B20 can be routed through narrow slit between body and cover case.

It's especially designed to save valuable labor and time in the production environment. The SIM extender is designed to minimize the signal degradation effects of the extender by proven design techniques.

It's also a powerful tool for engineers,or use for mobile phone SIM test protection.
