

KZ-B20(micro SIM to SIM Card Extender)

Introduction:

KZ-B20 Micro SIMcard Extender is a debug and test tool. Design the FPC cable for flexible use.

It allows a SIM Card to be extended from the host slot for SIM interface.

It's especially designed to save valuable labor and time in the production environment. The SIM extender is designed to minimize the signal degradation effects of the extender by proven design techniques.

It's also a powerful tool for engineers,or use for mobile phone SIM test protection.

FPC thickness: 0.10mm

HAMBURG Model: ICC-411

As a New manufacturer of quality computer connectivity products since 2009/Mar, BPLUS technology brings to market a broad range of upgrade products. These products bridge the connection between Desktop/Notebook systems and external peripherals.
