

PMMD V1.3 (SATA to mini-SATA adapter with SATA Power)

The SATA to mSATA adapter is a converter tool for mini-SATA interface. This module allows you connect any SATA device to the m-SATA slot through a standard SATA port and power cables.

SATA power connector can supply 3.3V/5V/12V to SATA device, when 5V and 12V are input from 4pin FDD power connector

Function

- Allows user to use standard SATA hard device to SATA-IO mSATA slot in the Desktop or Laptop PC.
- Transparent to the operating system and does not require any software drivers

System Requirements:

- mSATA slot

Notice:

- This adapter is engineering test tools. NOT for home or office use.
- The Products just only support mSATA slot, Can't support PCI express mini card, Can't support Apple MacBook air SSD Card.
- SATA power and 4pin FDD connectors may be interfered each other.

As a New manufacturer of quality computer connectivity products since 2009/Mar, BPLUS technology brings to market a broad range of upgrade products. These products bridge the connection between Desktop/Notebook systems and external peripherals.
