

USB 2.0 / 3.0 Test Fixture (5V to 5V/3.3V)

Model : U3EX

The USB Fixture is a test tool for USB 2.0 / 3.0 interface with multi-functions of voltage switch, voltage test and current test. It's especially designed to save valuable labor and time in the production environment.

The USB Fixture is constructed of high quality components for years of trouble free service.

Function:

- Test connector for all of signal and power pins
- LED indicates power status
- Over-current protection with power switch IC
- Alternative Output Voltage: 5v to 5v/3.3v
- Voltage can be tested conveniently and directly
- Current can be tested conveniently and directly
- External power supply support

Dimension:

Width 65mm L length 18 mm PCB Thickness 1.6mm

Different switch and jumper can perform different function. You can know what you want through the test point.

As a New manufacturer of quality computer connectivity products since 2009/Mar, BPLUS technology brings to market a broad range of upgrade products. These products bridge the connection between Desktop/Notebook systems and external peripherals.
