

USBMI-WP

USBMI-WP Introduction

To build a 3G or 4G wireless environment in pit, desert or cave which is a very difficult challenge for constructors as water, dust and sand which are all natural enemies for these delicate electronic devices. Now Bplus Tech. is proud to present a new product USBMI-WP made for waterproof purpose or other extreme conditions. In our internal lab testing, USBMI-WP include antennas and the USB connectors made a kit is designed for most drastic conditions and totally corresponded to the request of IP66 as dust proof, protected from strong water jets. It is suited to oil-mining industry, weather forecasting system, earthquake or volcano monitored system probably located in a very bad environment. So now you don't need to expense additional cost to add other waterproof-housing to protect your wireless devices. Using our USBMI-WP will be a durable and economic solution for wireless transmission of the most extreme environments.

Specification:

- PCI Express Mini Card to USB adapter.
- PCI Express Mini Card Electromechanical Specification Revision 1.2
- Universal Serial Bus Specification Revision 2.0
- Compliant with Waterproof IP-66
- Full/ Half -Mini Card dimension.
- SIM Connector for CDMA HSDPA/HSUPA, UMTS, EDGE.
- Operating Temperature Range : - 40°C to +85
- Operating Humidity Range : 5% to 95% RH

Function:

- USB mini type-B connection to desktop or notebook PC.
- Supports two primary system bus interface: USB.
- Supports USB interface of Mini-Cards such as 3G,CDMA,WLAN,WLAN, HSPA MODEM , GPS, WiMAX Mini Card to desktop PC.
- Support SIM card connector.
- Support U.FL/IPX to RP-SMA pigtail Wifi RF cable adapter.

System Requirements:

Desktop or NOTEBOOK with USB port
Windows 2000, XP, Vista, 7,8 or Linux

As a New manufacturer of quality computer connectivity products since 2009/Mar, BPLUS technology brings to market a broad range of upgrade products. These products bridge the connection between Desktop/Notebook systems and external peripherals.
